1 - Are You Looking To Pack Your Products Choose Any One Material From Below

A) earthMADE™ MADE FROM PLANTS

Compostable Material

- We manufacture Compostable bioplastic packaging that will break down naturally when left in the right environment. Unlike traditional plastic packaging, it is made from organic materials that break down in a reasonable period of time and leave no toxic chemicals or harmful particles behind.
- Note: Not suitable for oily, liquid products & Products that require long shelf life.

B) Papermade™ Plastic Free Packaging

Plastic Free Paper Material

- In the past, the focus of food packaging was to provide branding, protection, storage and transportation. Now, the focus has shifted to promoting circular economy and utilizing sustainable raw materials. Papermade pouches offer a packaging solution that simultaneously protects and preserves the environment.
- Our Papermade pouches have a low & Medium barrier capacity.
- Papermade pouches are well suited for secondary packaging, outer packaging or it is used to pack light weight products like chocolate & energy bars.
- Use paper where possible, plastic when useful.

C) WISSLoop™ Designed for Recycling

Recyclable Material

- 100% Recyclable flexible pouches are a step in the right direction for all the environment conscious businesses who require affordable packaging.
- In the majority of cases, this material serves as a viable substitute for non-recyclable packaging, offering a sustainable alternative that aligns with eco-friendly practices.
- This will not only help your brand image but also contribute towards a circular economy and Zero Waste future.
- *We can also manufacture recyclable bags with upto 80% recycled Plastic raw material (PCR).

D) **WASTEBORN™** Made using Recycled Material

Made using plastic Waste Material

- **WASTEBORN** is made up of recycled materials (PCR)
- By using **WASTEBORN** materials, we are helping to reduce the amount of plastic waste that ends up in our ocean and landfills
- **PCR (Post-Consumer Recycled) Pouches** are paving the way for a Circular Economy.
- By utilizing PCR materials, these pouches effectively divert waste from landfills & Cleans up our planet.

E) **S'protek** For Ultimate Protection

Plastic & Paper High Barrier Material

Conventional / Linear Material

- Multilayer plastic lamination offers a cost-effective packaging solution with customizable barrier properties that extend the shelf life of perishable products.
- The different layers in the lamination can be tailored to provide specific barrier properties, such as oxygen and moisture resistance, according to the product's requirements.
- This not only helps to minimize spoilage and maintain product freshness but also ensures that the packaging provides optimal protection at a competitive price point.

SUSTAINABLE PACKAGING SOLUTIONS

2 - Now Choose Any One Printing Technology

F) Laser Printed Pouches / Rolls

Minimum 1000 Pieces

Print Tech
CMYK+O+V+W
